Requirements Overview Document

mPayhub Fintech Platform

(Prajna Infotech)

---

1. Platform Overview & User Structure

mPayhub is a multi-tier fintech platform designed to support digital payments, wallet-based fund management, BBPS bill payments, and commission-based distribution operations. The system is structured to ensure transparency, security, and precise financial tracking across all user levels.

User Hierarchy

The platform follows a structured, role-based hierarchy:

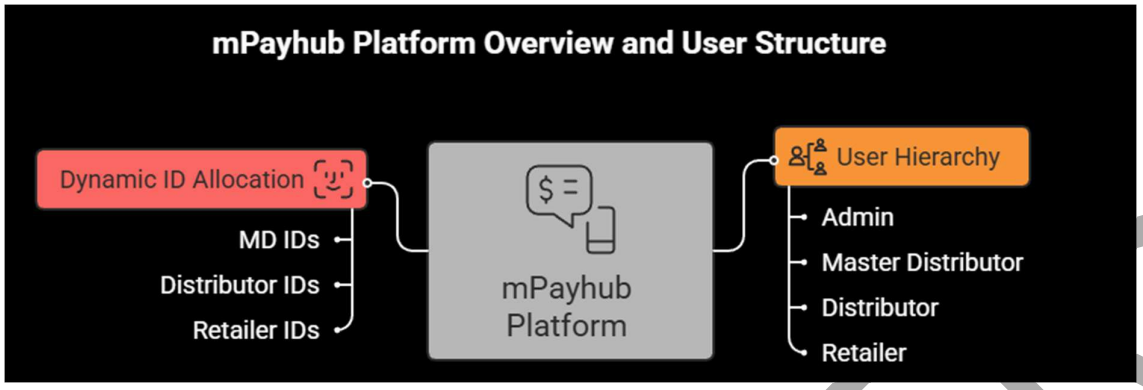
- **Admin**
  - Complete system ownership and control
  - Manages all users, transactions, wallets, and reports
- **Master Distributor (MD)**
  - Onboards and manages Distributors and Retailers
  - Earns commissions from subordinate transactions
- **Distributor (D)**
  - Manages the Retailer network
  - Receives commissions based on Retailer activity
- **Retailer (R)**
  - End user performing individual transactions
  - No authority to manage other users

Dynamic ID Allocation

Each user is assigned a system-generated, prefix-based sequential ID:

- MD → MD1, MD2
- Distributor → D1, D2
- Retailer → R1, R2

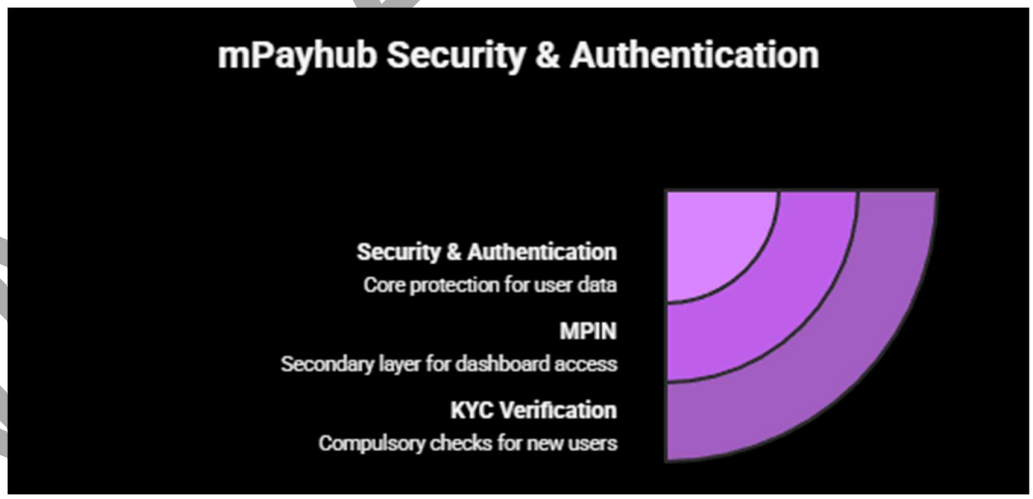
INNO ANSWERS



2. Platform Modules & Functional Scope

Module 1: Security & Authentication

- **Login Method:** Registered mobile number and password
- **Secondary Security Layer:**
  - Mandatory **6-digit MPIN** entry after login to access the dashboard
- **KYC Verification:**
  - **Aadhaar** OTP validation
  - **PAN** verification
    These checks are compulsory for new user onboarding to ensure compliance and legitimacy.



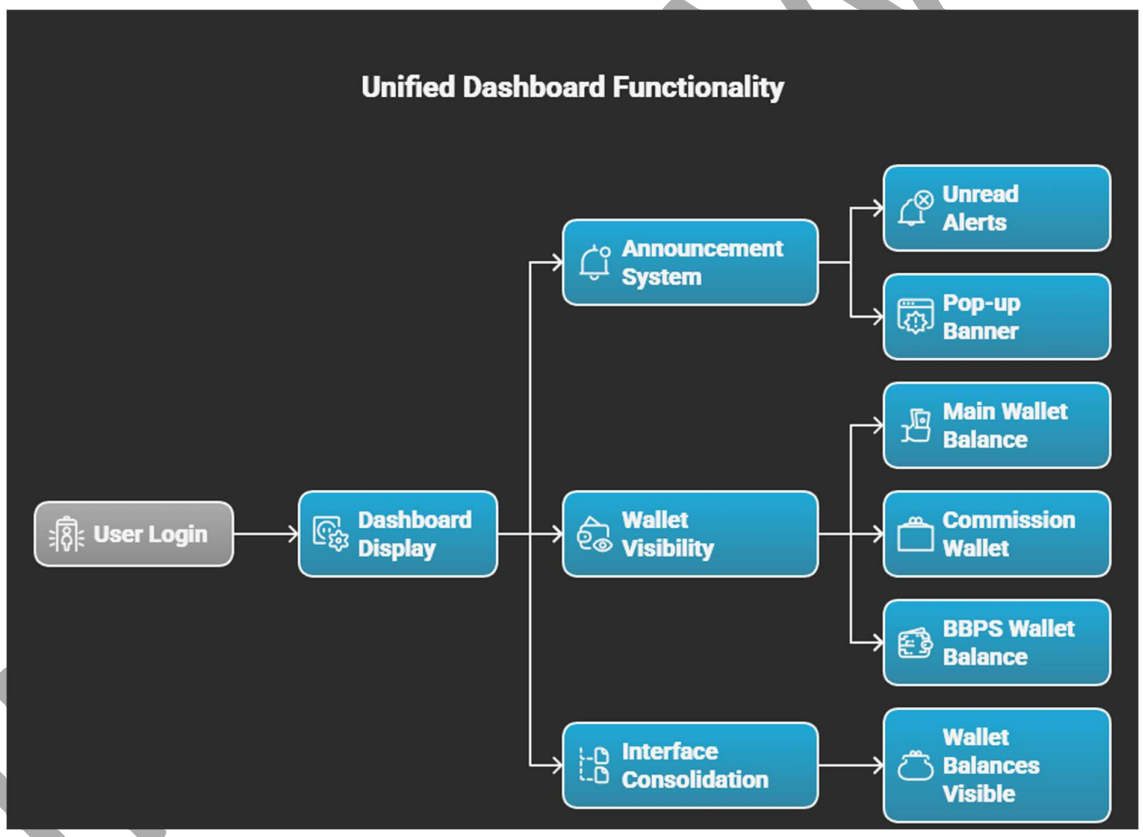
Module 2: Unified Dashboard

The dashboard serves as the central control hub for all users.

- **Announcement System:**

INN ANSWERS

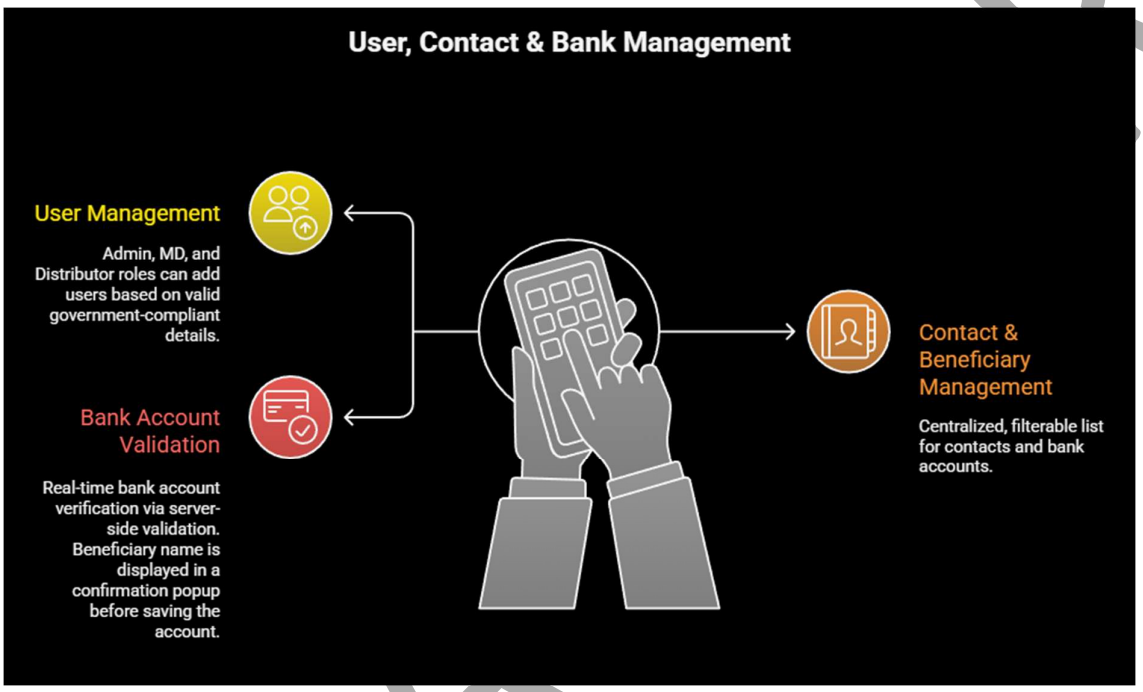
    - Flashing bell icon for unread alerts
    - Pop-up banner displayed on first login of the day for critical updates (e.g., limit or policy changes)
- **Wallet Visibility:**
    - Main Wallet Balance
    - Commission Wallet (visible only for Admin, MD, and Distributor)
    - BBPS Wallet Balance
- **Interface Consolidation:**
    - As per client direction, the **Dashboard and Wallet sections are merged**, ensuring wallet balances are visible immediately upon login.



Module 3: User, Contact & Bank Management

- **User Management:**
    - Admin, MD, and Distributor roles can add users based on valid government-compliant details
- **Contact & Beneficiary Management:**

    - Centralized, filterable list for contacts and bank accounts
- **Bank Account Validation:**
    - Real-time bank account verification via server-side validation
    - Beneficiary name is displayed in a confirmation popup before saving the account



Module 4: Fund Management (Pay-in & Pay-out)

Add Funds (Pay-in / Load Money)

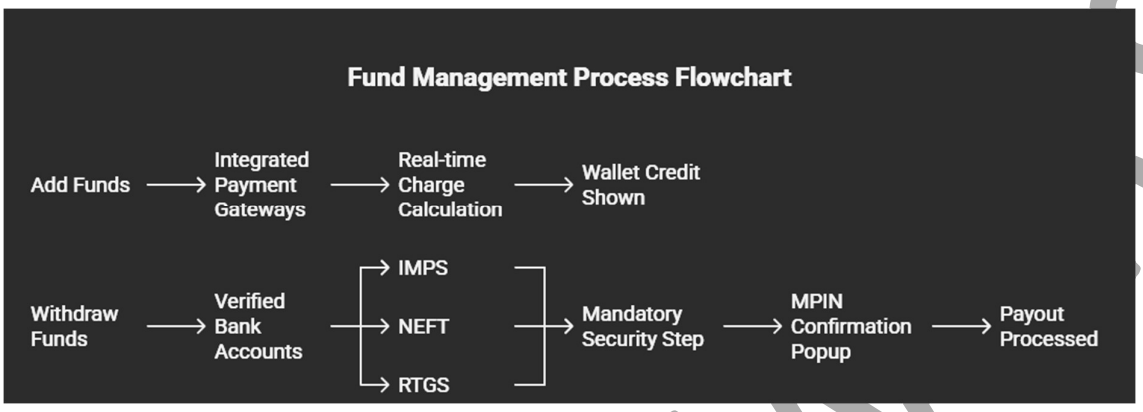
- Funds are added through integrated payment gateways (e.g., Razorpay)
- **Real-time Charge Calculation:**
    - Example:
        - Amount entered: ₹10,000
        - Gateway charge: 1%
        - Wallet credit shown: ₹9,900

Withdraw Funds (Vendor Payouts)

- Transfers to verified bank accounts using:
    - IMPS
    - NEFT

INNO ARTS

    - RTGS
- **Mandatory Security Step:**
    - MPIN confirmation popup required before processing every payout



Module 5: BBPS – Bharat Bill Payment System

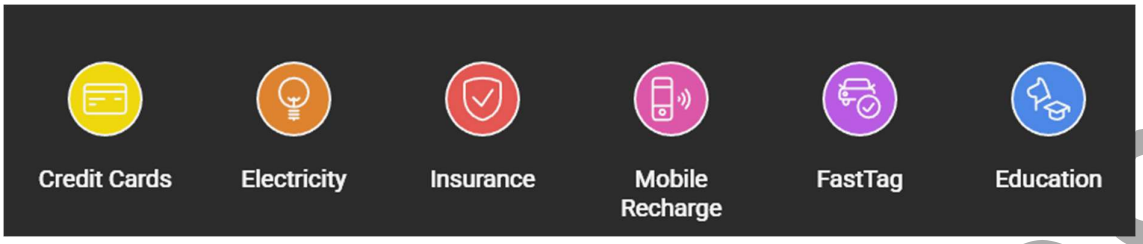
Supported bill payment categories include:

- Credit Cards
- Electricity
- Insurance
- Mobile Recharge
- FastTag
- Education

Fetch Bill Feature (Credit Cards):

- User inputs:
    - Biller name
    - Last 4 digits of credit card
    - Registered mobile number
- System fetches:
    - Total due amount
    - Due date

INNO ANSWERS



Module 6: Reporting, Auditing & Passbook

Master Passbook Ledger

A bank-style ledger records every transaction with full transparency.

Ledger Fields:

- Opening Balance
- Service ID
- Transaction Type (Debit / Credit)
- Service Charges
- Closing Balance

Transaction Reports

Dedicated report sections for:

- Pay-in
- Pay-out
- BBPS transactions

Each transaction displays a clear status:

- Success
- Pending
- Failure (color-coded for clarity)

Commission Reports

- Master Distributors and Distributors can view commission earnings generated by their downstream users
- Detailed, transaction-level commission breakdown available
