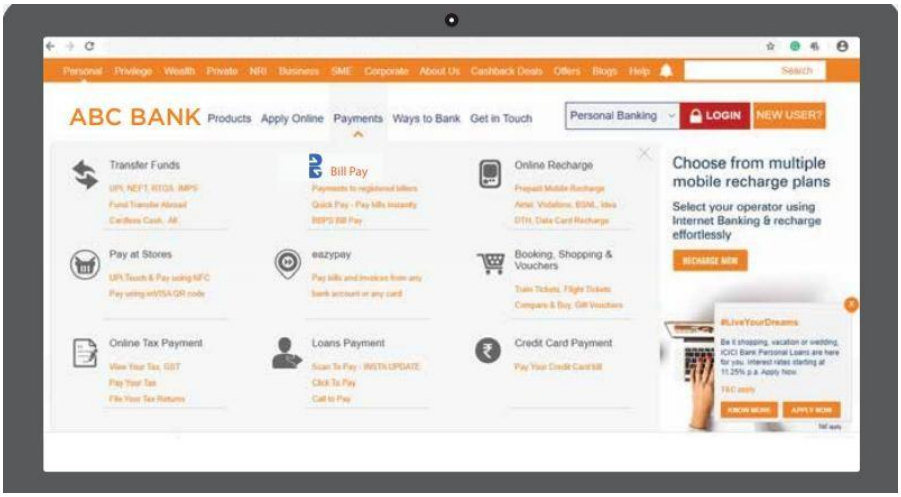
## Frontend demo for WEB

Kindly find enclosed herewith the revised Bharat Connect Brand Guidelines. Key aspects are delineated below:

1. Bharat Connect “B” mnemonic to be placed at the entry of Connect section or Pay Bills sections (across all channels and respective Agent-Institutions). This will help consumer to identify with the brand as they look to begin their journey to pay their bills on the app/website/other channels. (Enclosed B Mnemonic). Below B mnemonic logo use words like Bill Pay/ Pay Bill/ Bill Payment.



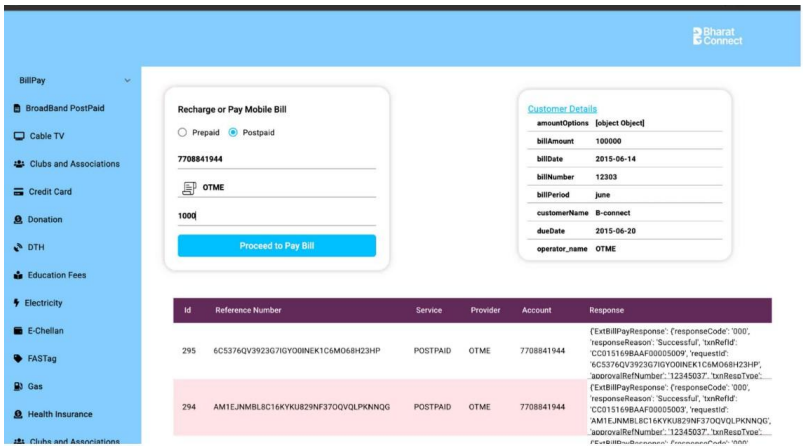
2. Please display all BBPS categories with the Bharat Connect logo as follows:

1) Agent Collection
2) Broadband Postpaid
3) Cable TV
4) Clubs and Associations
5) Credit Card
6) DTH
7) eChallan
8) Education Fees
9) Electricity
10) EV Recharge
11) Fastag

12) Fleet Card Recharge
13) Gas
14) Housing Society
15) Insurance
16) Landline Postpaid
17) Loan Repayment
18) LPG Gas
19) Mobile Postpaid
20) Mobile Prepaid
21) Municipal Services
22) Municipal Taxes
23) National Pension System
24) NCMC Recharge
25) Prepaid Meter
26) Rental
27) Subscription
28) Water

We would like to inform you that the UAT billers, "OTME00005XXZ43" for Fetch and Pay and "OTNS00005XXZ43" for Quick Pay, need to be listed on your frontend.
Upon selecting a biller, the system should redirect to the “Bill Fetch” page. On this page, customers can obtain bill details by providing the following information:
Mobile number:
- 9898990084 for Bill Fetch and Pay
- 9898990083 for Quick Pay
Input Parameters:
a) Param Name: `a`, Param Value: `10`
b) Param Name: `a b`, Param Value: `20`
c) Param Name: `a b c`, Param Value: `30`
d) Param Name: `a b c d`, Param Value: `40`
e) Param Name: `a b c d e`, Param Value: `50`

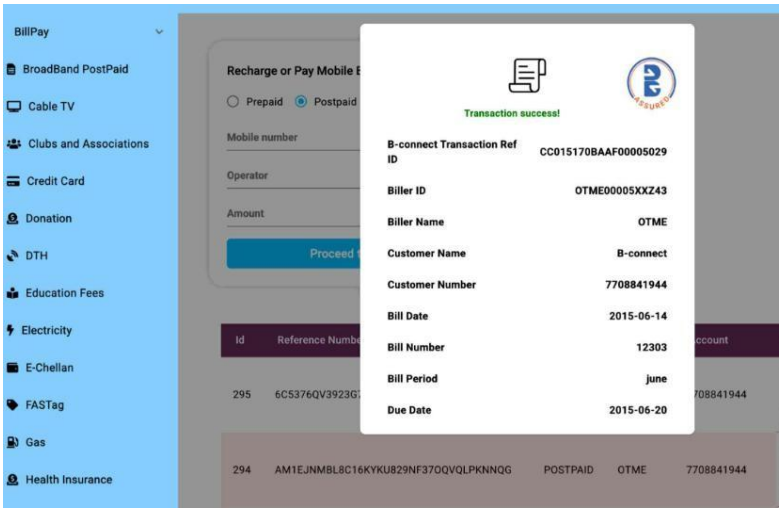
3. Please note that this scenario is for UAT. For production, the field names should be as follows: “Mobile number,” “Biller name,” “CA number,” “Email,” “Customer name,” etc., depending on the biller.
On the fetched Bill Page, the following fields should be displayed: Biller Name, Customer Name, Customer Number, Bill Date, Bill Period, Bill Number, Due Date, Bill Amount, Customer Convenience Fees, Total Amount, Payment Mode, and Multiple Amount Option.
The Amount Options include parameters like "Base Bill Amount," "Late Payment Fee," "Additional Charges," and "Fixed Charges," with customers able to select one or multiple amounts, while the "Total Amount" combines the Bill Amount and Customer Convenience Fees, and all amounts should be displayed in Rupees, not Paise.

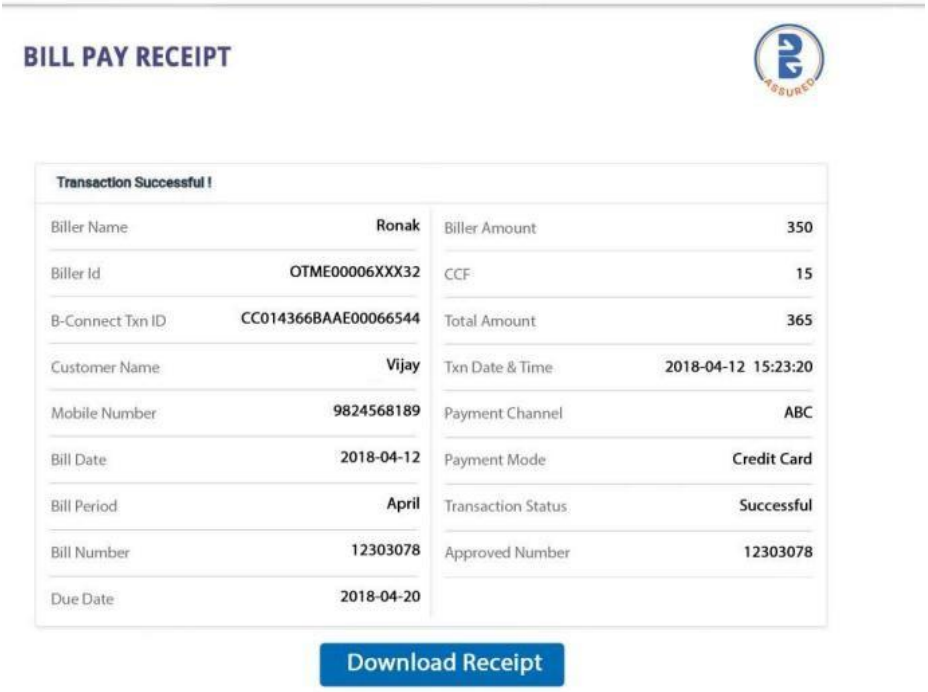


4. By clicking "Pay" on the Bill Payment page, a receipt should be generated with the Be-Assured logo prominently displayed in the top right-hand corner. The receipt should include the following fields: 20 character B-Connect Transaction ID (starting with "CC01"), Biller ID, Biller Name, Customer Name, Customer Number, Bill Date, Bill Period, Bill Number, Due Date, Bill Amount, Customer Convenience Fees, Total Amount, Transaction Date and Time, Initiating Channel, Payment Mode, Transaction Status, and Approval Number.

5. To enhance user experience and reinforce our brand identity, the designated sonic branding audio clip must be played simultaneously with the display of 'B Assured' on the payment successful screen. This sonic branding element should be consistent across all platforms and devices, maintaining the same tone, tempo, and overall audio characteristics.

6. Kindly use term as B-Connect Transaction ID which starts from CC01 of 20 characters in below transaction successful page and receipt page.





BILL PAY RECEIPT

Transaction Successful !

| | | | |
|---|---|---|---|
| Biller Name | Ronak | Biller Amount | 350 |

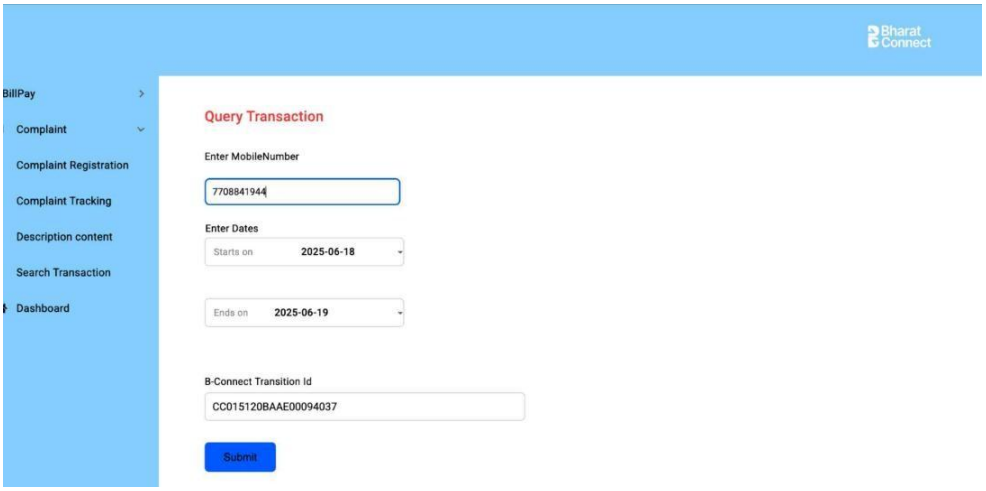
7. Search Transaction Screen-- should be Search By:

   a. B-Connect Transaction ID

   b. Mobile Number and Date Range (OTP required for mobile number)
   Response Fields should include `<agentId>`, `<amount>`, `<billerName>`, `<txnDate>`, `<txnReferenceId>`, and `<txnStatus>`.

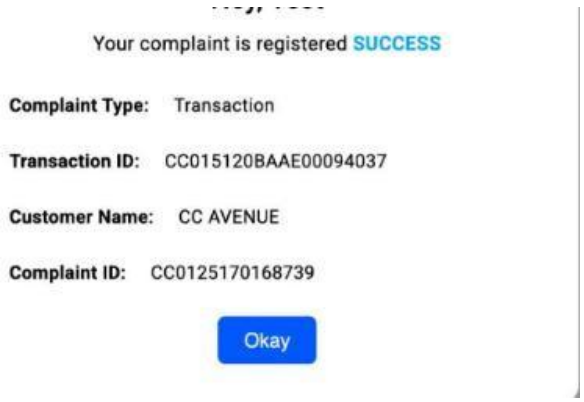


8. Complaint Registration Screen-- which should include three sections:

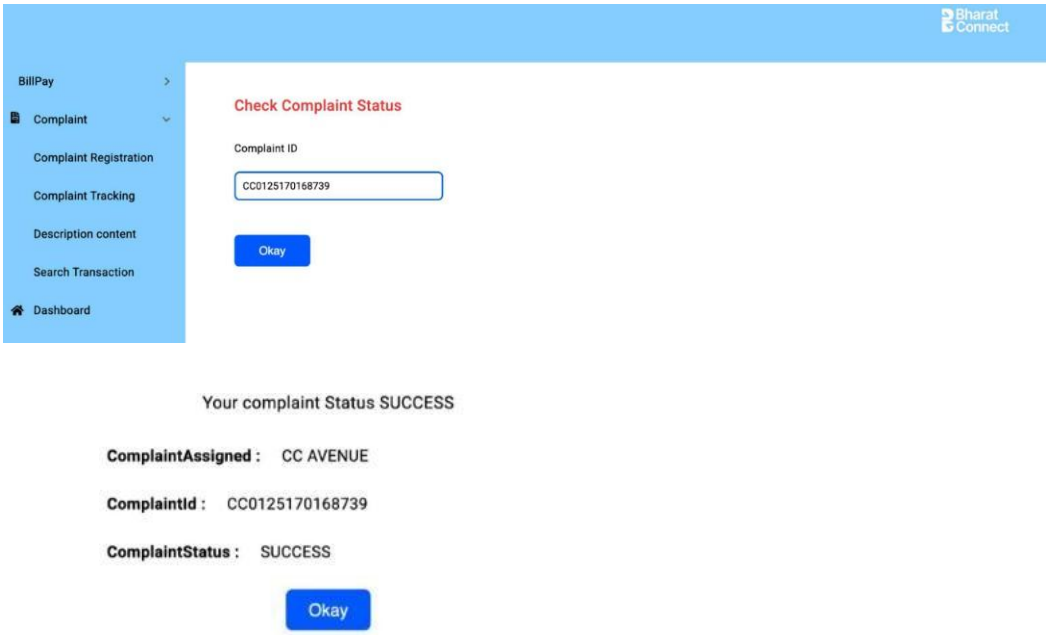
- Transaction Type Complaint:
  - Input Fields:
    - Type of complaint (default as "Transaction")
    - B-Connect Transaction ID or Mobile Number and Date Range
    - Complaint Disposition (from BBPS list)
    - Complaint Description
  - BBPS Dispositions:
    - Transaction Successful, Amount Debited but services not received
    - Transaction Successful, Amount Debited but Service Disconnected or Service Stopped
    - Transaction Successful, Amount Debited but Late Payment Surcharge Charges add in next bill
    - Erroneously paid in wrong account
    - Duplicate Payment
    - Erroneously paid the wrong amount

- Payment information not received from Biller or Delay in receiving payment information from the Biller
- Bill Paid but Amount not adjusted or still showing due amount

- Response Page Fields:
  - <complaintAssigned>
  - <complaintId>



9. Complaint Tracking screen—Should be tracked by using the complaint id.

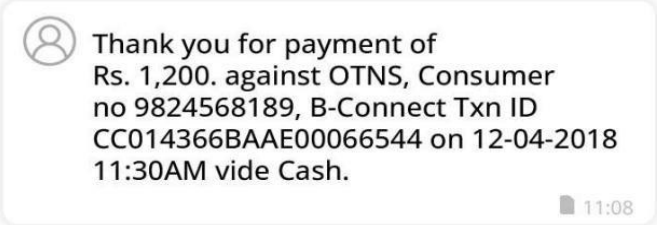


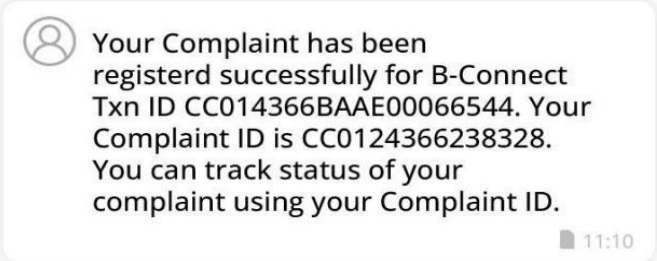
10. Kindly Provide SMS for Successful Transaction & Complaint Registration. Please find below SMS Format
    SMS for Successful Transaction:

    Thank you for payment of <AMOUNT> against <BILLERNAME>, Consumer no<CONSUMERNO.>, B-Connect Txn id <12digitRefID> on <DATE&TIME> vide <PAYMENTCHANNEL>.

11. SMS for Complaint Registration:

    Your Complaint has been registered successfully for B-Connect Txn id <12digitRefID>. Your Complaint ID is XXXXXXXXXXXXXXX. You can track status of your complaint using your Complaint ID.





12. Bharat Connect logo (horizontal) to be present during selection of Biller, Bill Fetch, Bill Payment and other value added services like Transaction Query, Raise Complaint, Complaint Status etc. The Bharat Connect logo, should be present on the top right-hand corner of the page with optimum visibility.

13. Please ensure that the Be-Assured logo should be present on the top right-hand corner of the page with optimum visibility of the bill payment receipt or payment confirmation page.

NOTE:

1. The logo must remain fixed in position and should not shift across screens.

2. The logo size should be exactly 35px.

3. The logo must appear consistently and remain stagnant across all pages.

4. Either make the background color white on all screens OR use the white version of the logo and keep the background color as per your requirement for better visibility.

5. If your business module is BtoC- then you need to share us the designated sonic branding video clip, demo has been provided, kindly refer demo video file.

6. Please ensure the logo size is the same for all
   B-Connect logo size is 83 × 30 px
   B Assured logo- 130 × 120 px

7. As per NPCI's new guidelines, please fill in the attached checklist and share it for front-end approval. Kindly name the file as AI name_CC01. Please note, if approval is required for multiple channels, use the same checklist file and create a new sheet within it. Each sheet should correspond to the respective payment channel.
